                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           Scoring table:
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 Command line parameters:
Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      January 16, 2004, 08:00:33 ; Search time 444 Seconds (without alignments) 3493.009 Million cell updates/sec

US-09-847-081B-1
; Sequence 1, Application US/09847081B
; Patent No. US20020128464A1
; GENERAL INFORMATION:
; APPLICANT: BAYER AG
TITLE OF INVENTION: DNA encoding the tobacco phytoene synthase
; FILE REFERENCE: Le A 34 326
; CURRENT APPLICATION NUMBER: US/09/847,081B
CURRENT FILING DATE: 2001-05-02
; NUMBER OF SEQ 1D NOS: 10
; SOFTWARE: PatentIn Ver. 2.1
; SEQ 1D NO 1
; LENGTH: 1728
; TYPE: DNA
ORGANISM: Nicotiana tabacum
FEATURE:
; NAME/KEY: CDS
; LOCATION: (244).. (1566)
